

Virtual Reality Telehealth for a smarter, more enjoyable recovery.

THE WORLD'S FIRST TELEHEALTH TREATMENTS WITH MEDICAL VR

HOW IT WORKS?

1. Eligibility check.
2. Live video kickoff with a clinician.
3. 90 days treatment program: Personalized VR training, Progress reports, Live video check-ups with a clinician

WHO IT'S FOR?

Whether you're dealing with cognitive, emotional or physical symptoms, XRHealth utilizes cutting-edge technology to help you get better, faster. Simple to use no matter your age, and simple for your clinician to track.

WHAT ARE THE RELEVANT CONDITIONS?

- Stress, anxiety, memory decline
- Chronic pain, acute pain, pain distraction, pain syndromes
- Traumatic brain injury and stroke rehabilitation
- Neck, shoulder, spinal cord injuries and neurological disorders
- Hot flashes and night sweats

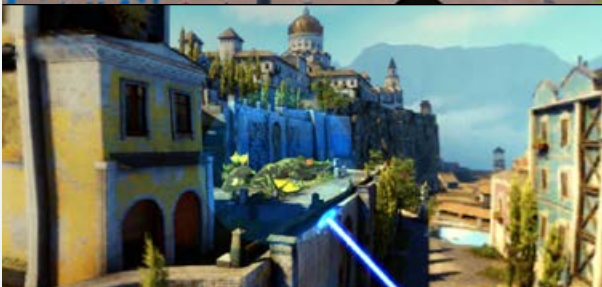

WIDE VARIETY OF IMMERSIVE APPS

Once you put on the VR headset, you'll be fully immersed in a digital environment adjusted to your specific needs - welcome to the future of healthcare!

BALLOON BLAST

Active Cervical Spine ROM Assessment and Rehabilitation Application.

ROTATE

Neck Training Application, tracking range of motion, smoothness of the motion and improvement over time.

REACT

Motor Cognitive Training and Evaluation Application.

MEMORIZE

Cognitive Training Application for executive functions and memory span.

LUNA

CBT Application for Hot Flashes including an AI therapist for psychological assistance and self-management of symptoms.

RELAX 8

Assist with self-management of anxiety and pain and provides a distraction.

WHY IT'S DIFFERENT?

- XRHealth turns your physical and/or emotional recovery process into a fun and easy experience.
- You and your clinician get real-time updates on your progress, without constant in-person checkups.

WHAT ARE THE COSTS?

- XRHealth treatments are covered by most insurance companies
- Use your headset or buy from Amazon ([Quest](#) or [Go](#))

WHERE CAN I USE IT?

Wherever, whenever. The XRHealth platform is designed to make it easier for you to get back on track at your own pace and convenience.
